

Lightbulb Table

James Wines

2018

Part of a signature collection based on thinking about the light bulb as an archetype. White Light, with its typical form, is the matrix, the basic icon. Black Light works on the concept of inversion: the bulb housing emits light, while the bulb itself remains "dark". An affordable temptation for those who are fascinated by the conceptual approach of critical reflection of the architect James Wines. Comes in a personalized box.

Lightbulb Table Led

Color

White, Black

Material

Blown glass and aluminium
