

Caboche Plus Suspension

Patricia Urquiola, Eliana Gerotto
2005

More transparency, lighter shapes and an even brighter light. New arches, a new "twist lock" attachment system and new spheres, that appear to float in space once mounted, create a truly beguiling total transparency effect. When it is switched on, light spreads without interference through 360°, with a beam both directed below and upwards. Available in the new, sophisticated grey colour.
