

## Hoba Table

*Ludovica e Roberto Palomba  
2023*

Crafted in matte blown glass, the Hoba lamps feature an asymmetrical and irregular shape, reminiscent of a crystallized meteorite in the moment of flight. Created with a special glass blowing procedure, their irregular forms are always slightly different from each other, forming a collection of consistently unique pieces, produced in series but with the characteristics of handmade uniqueness. Available in various sizes and for different functions, they emit warm and enveloping light.
