

## Fregio Suspension

*Andrea Anastasio*

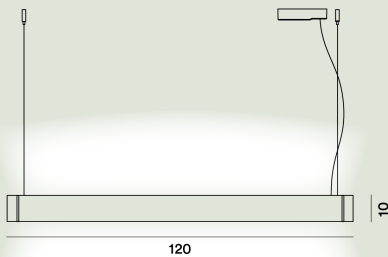

*2023*

Fregio is a luminous sculpture, a highly decorative pendant lamp with direct light towards the surface and indirect light upwards. It combines the ancestral flavor of hand-decorated glazed ceramics with the technological and industrial essence provided by LED light sources and metal support brackets. The horizontal floral bas-reliefs in ceramic, obtained by selecting portions of historic molds from the Gatti ceramic arts workshop of Faenza, are handcrafted and differ from one side to the other.
